

Handmade Snowmen!

No two snowmen are the same; build a snowman unique to you!

Enjoy a winter craft night with your residents by turning clothespins into snowmen!

Using white paint, cover the clothespins completely. Then, once it has dried completely, use a black marker to draw eyes, a button smile, and buttons down your snowman's front.

If you have yarn, you can tie that around the snowman to create a little scarf. Pom poms also make great carrot noses. Feel free to get creative!
