

Map Your Own Tour

Age is no barrier when it comes to seeing the world!

Print out maps of the world and pass them out to your residents along with a pen or marker. Encourage everyone to draw their ideal route for their perfect world tour. It can be a compilation of places they wish to visit, or perhaps a trip they have taken in the past.

Once everyone is complete, encourage them to share their trip with the group!

Reach out to join our daily live programming community!
